

For performance  
that lasts

**Our solutions  
come first**

**AMPHENOL  
PROCOM**  
connect with confidence

# Trusted worldwide for reliability

With Amphenol Procom as part of your network, you can be sure of exceptional performance today and for many years to come. As a world-leading provider of antennas, combiners and filters, and DAS solutions, we deliver the reliability and value you need – with a global team driving innovation for the future.

## The best in the business

We've brought together the most trusted brands in the industry – Jaybeam, Skymast and Procom – under the Amphenol Procom banner.

Not only does this give you access to an even larger portfolio of state-of-the-art products as well as a wealth of combined resources and expertise, but it enables us to push new boundaries of product development and customer service.

**OUR GOAL: TO DELIVER  
THE WORLD'S MOST  
TRUSTED, FLEXIBLE  
SOLUTIONS WHERE  
CONNECTIVITY  
AND DEPENDABILITY  
IS CRITICAL.**

INDUSTRY

ANTENNAS

Our filtering and combining equipment is used both for site applications and for highly customized applications with RF components designed for OEM base stations and infrastructure equipment. We also offer a complete range of trusted DAS solutions for virtually all combinations of frequencies and coupling levels.

**Amphenol Procom  
is the reference  
brand in the market.**

Markoja (Croatia)

Your network relies on the quality of its components; if one goes down, it can take the rest with it. That's why we only provide class-leading products, built for quality and tested to the extreme, that deliver optimal performance under all conditions, virtually service-free.

#### With you at every stage

However, *reliability* means far more than just superior product quality. Our broad experience across sectors, applications and environments means we offer the

whole package: expert advice for optimizing your network, short lead times, ease of installation, low PIM, simple serviceability and dedicated support. Because at Amphenol Procom, everything we do is focused on creating long-term value through a lower total cost of operation.

#### Built to last
